

CSES Problem Set

Stick Lengths

TASK | SUBMIT | RESULTS | STATISTICS | TESTS | QUEUE

Time limit: 1.00 s Memory limit: 512 MB

There are n sticks with some lengths. Your task is to modify the sticks so that each stick has the same length.

You can either lengthen and shorten each stick. Both operations cost x where x is the difference between the new and original length.

What is the minimum total cost?

Input

The first input line contains an integer n: the number of sticks.

Then there are n integers: p_1, p_2, \ldots, p_n : the lengths of the sticks.

Output

Print one integer: the minimum total cost.

Constraints

- $1 \le n \le 2 \cdot 10^5$
- $1 \le p_i \le 10^9$

Example

Input:

_

2 3 1 5 2

Output:

5
